## INTERNSHIP

### Research developer

Summer Intern at Civil Machines Technologies Private Limited

06/2018 – 08/2018

*CMT is a one-stop technology and business consulting solution provider that adds strategic values to partner companies.*

*Tasks Given*

- OfficeCafe - It is a restaurant and cafe billing and management system. I worked on the backend and added payment gateway integration with Instamojo functionality and other features.
- Hisab Kitab - It is a money management system. I worked on backend using technologies like python, django, django rest framework. I took complete responsibility of the code.
- Flexy Managers - It is a Human resource consulting firm. I added referral functionality and other basic features.
- I also published 6 rest framework libraries namely drfaddons, drf\_users, drf\_transaction, drf\_feedback, drf\_account, drf\_contact.
- Technologies Used: Python(3.6), Django(2.0.7), Django Rest Framework, MySQL, Angular 6, Linux, AWS EC2 and AWS Lambda.

## PERSONAL PROJECTS

### Personal Website/Portfolio

- My website showing my previous projects and resume written in python with django.

### Word-Counting Website

- A simple website to count the most frequently used words in a piece of text entered by the user.

### Product Hunt Clone

- A simplified version of the awesome product hunt website to share new tech products.
